

COMPUTER ENGINEERING TECHNOLOGY - BUSINESS FORENSICS INVESTIGATIONS MAJOR, ASSOCIATE OF APPLIED SCIENCE

Curriculum Code #6220

Effective May 2017

Division of Engineering, Business and Information Technologies (<http://catalog.lorainccc.edu/academic-programs/engineering-business-information-technologies>)

The business forensics investigations major provides graduates with the skills necessary to understand and determine if fraud or certain other white collar crime is present in the workplace. Certification as a fraud examiner or as a certified forensic accountant will require a bachelor's degree. Students are given comprehensive information and training in digital forensics and data recovery tools, evidence collection, proper criminal investigation practices, evidence and report preparation for litigation. This program is designed to meet the needs of new students as well as individuals already employed as criminal justice officers or persons who are preparing themselves for full- or part-time employment in investigating white collar crime. This major brings together three professional areas: accounting, digital forensics and criminal justice. Lorain County Community College has articulation agreements with colleges and universities including programs offered by LCCC's University Partnership.
