

# COMPUTER INFORMATION SYSTEMS - INFORMATION SECURITY FOR BUSINESS, SHORT-TERM TECHNICAL CERTIFICATE

Curriculum Code #6623

Effective May 2025

Division of Engineering, Business and Information Technologies (<http://catalog.lorainccc.edu/academic-programs/engineering-business-information-technologies/>)

The short-term technical certificate of information security for business provides the certificate holder a foundation in information security concepts starting with understanding risk concepts and addressing them through organizational elements and technology. A broad understanding of information security concerns such as: business continuity planning, policy development, IT security concepts, technology solutions, physical security issues, legal compliance topics, investigative techniques and accounting principles focused on the detection of fraud. This certificate is designed for the business major who does not have extensive hands-on technology background, but has experience in a managerial or other senior-level position and needs an understanding of information security issues and processes.

Code	Title	Hours
<b>REQUIRED COURSES</b>		
ACTG 151	ACCOUNTING I - FINANCIAL	4

SDEV 101	INTRODUCTION TO THE LCCC COMMUNITY <sup>2</sup>	1
<b>Total Hours</b>		<b>20</b>

1

Indicates that this course has a prerequisite.

2

A student must register for the orientation course when enrolling for more than six credit hours per semester OR any course that would result in an accumulation of 12 or more credit hours.

While completion of this certificate may aid in obtaining employment, many employers recommend the minimum completion of a degree program to gain employment in a business-related field.
