Curriculum Code #6621

Effective May 2024

Division of Engineering, Business and Information Technologies (<http://catalog.lorainccc.edu/academic-programs/engineering-business-information-technologies/>)

The short-term technical certificate web design fundamentals represent the successful completion of select web development courses that prepare the student to develop simple web sites. The topics in the coursework include: HTML, XHTML, CSS, XML, JavaScript, server-side scripting languages (PHP, ASP.NET or equivalent), Web 2.0 technologies – such as AJAX basic programming logic, basic web design principles, basic Flash animation, basic image editing, basic audio editing and basic video editing. Completion of this certificate prepares the student for entry-level web design positions or for further study leading to an associate degree in web development. It is also especially well-suited for those individuals with professional experience and/or a degree, especially IT-related, that may want to upgrade their skills to include web design.
