

WELDING TECHNOLOGY - WELDING OPERATOR, ONE-YEAR TECHNICAL CERTIFICATE

Curriculum Code #6008

Effective May 2024

Division of Engineering, Business and Information Technologies (<http://catalog.lorainccc.edu/academic-programs/engineering-business-information-technologies/>)

The welding technology program is designed to provide students with the knowledge, skills and behaviors necessary for the competent performance as an entry-level welding technician. The welding technician is the liaison between the welding engineer and the welder. The program is based on the occupational analyses and needs of the maintenance and fabrication welding industries. Employment opportunities exist in a variety of industries such as steel, construction, fabrication, pipelines and others. Students who complete the program may choose to take certain welding certification tests. Lorain County Community College has articulation agreements with colleges and universities including programs offered by Lorain County Community College's University Partnership.
