

ENVIRONMENTAL TECHNOLOGY, SHORT-TERM TECHNICAL CERTIFICATE

Curriculum Code #7153

Effective May 2017

Division of Science and Mathematics (<http://catalog.lorainccc.edu/academic-programs/science-mathematics>)

Environmental technicians are employed in research, testing and quality control of a wide range of products, including petroleum, plastics, pharmaceuticals and semi-conductors. This short-term certificate program prepares students to function as technicians in either public or private laboratories, where they perform tasks such as environmental sample collection and monitoring, instrument calibration, report writing and data management. Students will learn a strong set of technical skills where they analyze various materials using standard procedures and instrumental procedures. Lorain County Community College has articulation agreements with colleges and universities including programs offered by Lorain County Community College's University Partnership.
