

TESTING AND ASSESSMENT CENTER

The Testing and Assessment Center provides a centralized location designated for testing, Accuplacer, ALEKS and other assessment services with flexible hours. Academic testing arrangements outside of the classroom must be arranged with the instructor.

The Accuplacer and ALEKS provide the opportunity to complete the placement assessment in a way that is most convenient for students. With a picture I.D., you can take the assessment on a space availability basis. The assessment takes approximately three to four hours. When results are available, students meet with academic advisors to interpret scores. Sample assessments and web-based study apps are available to students.

Please check the Testing and Assessment Center (<https://www.lorainccc.edu/testing-and-assessment/>) for scheduling, additional locations, and hours of operation.
